WILLIAM BARBEY August 12<sup>th</sup> 1878

VALLEYRES

VAUD (Suisse)

Dear Sir,

Many thanks for your kind  
note of July 8<sup>th</sup>.

M<sup>r</sup> Boissier received all right  
the copy you were kind enough to send  
him of your *Flora*, (and I have  
also secured some copy). - He  
has just come back safely from  
a 6 weeks exploration of Asturias,  
Gallicia & Portugal. -

We will take each, with  
pleasure, one collection of Fendler's  
Trinidad Ferns. M<sup>r</sup> Boissier  
further wishes a set of Curtis's

It is safe to have  
North American Plants (N<sup>o</sup> 6) and  
1 copy of the Bibliographical Index  
of Lereno Watson (N<sup>o</sup> 2) <sup>(I will take also 1 copy)</sup> which were  
suggested by the print which you  
were kind enough to send me.

I do not like to give you the  
trouble of having the plants and books  
forwarded, but at the same time  
hesitate to refuse the offer you  
are so kind to make.

M<sup>r</sup> Boissier begs to say that he  
is always disposed to take all exsiccata  
published in the States

very respectfully
